Cute game with nice cheerful cell shaded graphics. Very nice sound and music. If only it wasn't so damn frustrating it would actually be fun. Didn't really like the physics and constantly crashing my kart no matter what I did. After playing it I wish I had that time back.. I only played a few levels and i can tell this is a really fun game. People are complaining about the controls, but I think they suit the game. If it was easy to control the playermodel then you could beat inlike 2 min (not rly).

I think you guys who dont like the controls havent played oldscool games on oldscool systems, otherwise you wouldnt whine so much.

kkthxbye. I bought this game when it was 4\$. **BIG WASTE OF MONEY** Terrible, Do not buy, Your phone can play better games then this, Bought on accident. Not worth your money. I love the concept of a platfomer racer but the controls just aren't there. Great concept and potential, but it's missing that coat of polish it needs to be a good game.. kkthxbye. Great game! Graphics are cute and colorful and the music is charming; controls take a bit of getting used to but gets easier as you go on. You can really feel all of the heart and soul put into the game! Very fun and very addicting.. I love the concept of a platfomer racer but the controls just aren't there.
